

# HFT

## Overview

HFT, also known as Hunt Fitness Tracker, is a simple user-friendly application for fitness beginners and experts alike. This app will consist of four pages. On the Login page, the user will log into the app and then be navigated to their profile. The Profile page will display past completed workouts and a button to begin a new workout. The Workout page will display workout exercises options as well as a form for creating a new exercise. The Community page will display completed workouts of each user and allow users to comment on each others' completed workouts.

## User Stories

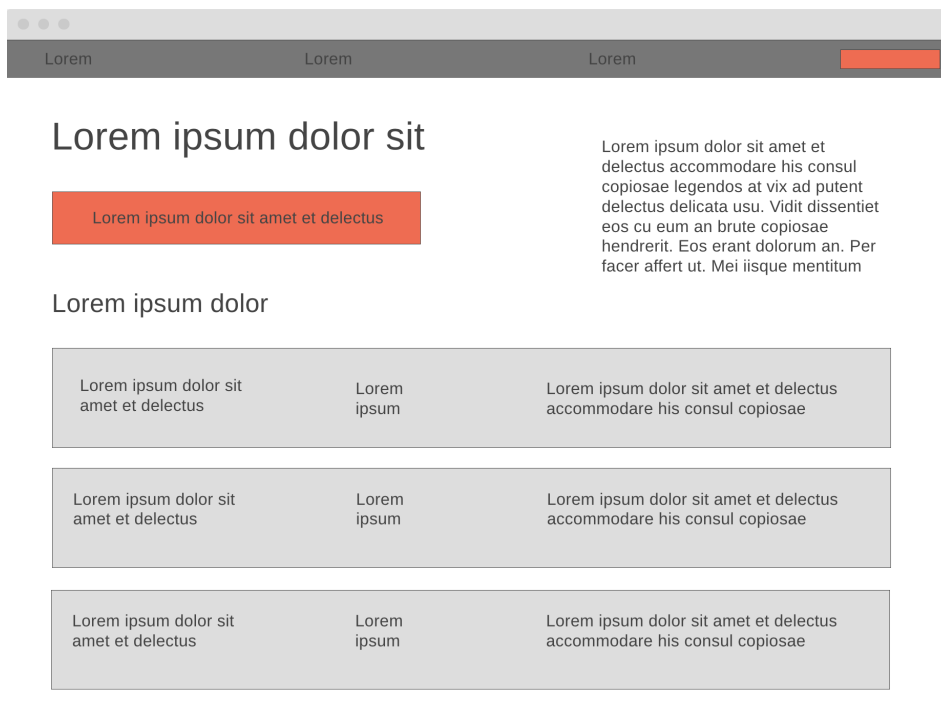

1. As a fitness beginner, I want to log my workouts so I can see my progress.
2. As a fitness expert, I want to uplift others and share my knowledge with other users.
