

Control Your Finances

Overview

CYF, also known as Control Your Finances, is a simple user-friendly application for those that want to get into budgeting. This app will consist of four pages. On the overview page, the user will see their expenses and income totals compared to each other. They will be able to click on either aspect to be taken to their respective pages. The expenses page will display a form for adding to their expenses, a list of their expenses and their expenses total. The income page will display a form for adding to their income, a list of their sources of income and their income total. The recommendations page will display various tips/ideas on how to improve their finances.

User Stories

1. As a first-time budgeter, I want to view my expenses and income in one place.
2. As a budget advocate, I want to control and understand my money habits based on my expenses and income.
